

Phantom Miro 341

EAN 1033630 / EL-NR

The Phantom Miro 341 is available in two body styles. The R style is ruggedized and LAB is for indoor software-based applications. Both styles are compatible with hot-swappable CineFlash recording media and are compact and versatile.

- 800 fps at 2560 x 1600
- ISO Ratings:
 - Mono 5000 D
 - Color 1250 D
- 12 GB RAM

The Phantom Miro 341 employs a 4 Mpx 35mm sensor with 3 Gpx throughput to deliver the high-speed images. This means large pixels and more detail in full-sized options. It also increases compatibility with quality lenses further increasing imaging results. Like other MIRO cameras the MIRO 341 has interchangeable lens mount options to accommodate Nikon, PL, C, and Canon EF (with electronic control) lenses.

The small body design is extremely lightweight weighing approximately 3 lbs (1.4 kg) and is available in two styles. The R style is ruggedized for harsh environments and outdoor use and includes the Miro MiniBOB for extra connection options. It includes BP battery support for primary and secondary power. The LAB style with simplified connectivity for software-based image capture.
