

Air temperature sensor type 116

-range -50 to 600°C

Type K thermocouple The sensor is with fixed type K plug. Measures air and gas temperatures (Non aggressive). Suitable for all instruments compatible with type K thermocouples.

Technical data:

Feeling type:	Type K
Temperature min (C°):	-50
Temperature max (C°):	600
Reaction time:	2
Measurement on probe:	Ø3 x 130 mm
