

Elma BM2805 Multimeter, True RMS

Robust multimeter with many functions

Elma BM2805 is a sturdy TRMS multimeter with backlit LED display capable of measuring voltage, current, frequency, resistance, capacitance, diodes and continuity. Functions include max-hold, data-hold, auto-range, relative values and VFD filter.

Elma BM2805 warns in case of erroneous connection, can be overloaded and is fitted with highly efficient fuses.

Elma BM2805 complies with IEC 61010 CAT IV 600V/CAT III 1000V, and is delivered with testleads, battery, rubber protection cover, and manual.

Technical data:

Voltage measurement:	DC; AC
Voltage measurement, AC (A):	1000
Voltage measurement, DC (A):	1000
Display :	Backlit LCD
Current measurement:	DC; AC
True RMS:	Yes
Min/max hold:	Max
Battery:	2 pcs, AAA, Inkl.
Security category:	CAT IV
Weight (g):	400
