

Elma 711 digital thermometer

Sensor type K, range -50 til 1350°C

Elma 711 is our well known, rugged thermometer with rubber protection and table stand, suitable for all branches. Furthermore 99 values can be saved in the memory, easy to scroll through, using the arrow keys. Elma 711 is the simplest in the 71x series, very easy to use and compatible with type K thermocouples, the most used type in industrial applications. Elma 711 is designed ergonomically, to use all functions with one hand and the large display is easy readable. The instrument offers max/min hold, selectable units °C/°F and resolution of 0.1 or 1 °C/°F. Elma 711 is delivered ready to use incl. rubber protection, batteries, TP01 wire sensor (-50°C..250°C) and manual. Please find a selection of sensors in the "Accessories" tab.

Technical data:

Range:

-50..1350°C

Accuracy:

±0,1% RDG ± 1°C

Resolution:

0.1 °C

Sensor type:

Thermocouple type K

Display:

3 1/2 digit LCD

Max display:

1999

Working temperature:

0...40°C

Working humidity:

Max. 80 %RH

Batteries:

6 pcs. of LR03 AAA 1.5V (Incl.)

Dimensions:

135x72x31mm

Weight:

235g
